PRINCE YADAV

Aspiring Machine Learning Engineer / Data Scientist

Deoria, Uttar Pradesh, 274601 | +91 9264900894 | princeyadavji68@gmail.com | linkedin.com/in/prince-yadaav | github.com/princeyadaav

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in Python, machine learning, and data visualization, strengthened by internships at IBM in Generative AI and Data Analytics and a completed IBM/Cognitive Class learning path in Applied Data Science with Python. Skilled in building and evaluating end-to-end machine learning pipelines, exploratory data analysis, and feature engineering, with practical exposure to classification, regression, and clustering. Seeking a Machine Learning role to apply model-building and analytical skills to real-world problems.

SKILLS SUMMARY

Programming Languages: Python, SQL, C
Machine Learning: Scikit-learn, Regression, Classification, Clustering (K-Means), Reinforcement Learning basics, Deep Learning fundamentals, Model Evaluation, Feature Engineering
Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Power BI, Tableau, Excel
Tools & Platforms: Jupyter Notebook, Visual Studio Code, IntelliJ IDEA, Git/GitHub, MySQL, SQLite
Core Competencies: Exploratory Data Analysis, Data Cleaning and Preprocessing, Prompt Engineering, Generative AI
Soft Skills: Communication, Team Collaboration, Problem Solving, Time Management

EDUCATION

Babu Banarasi Das University, Lucknow, India *May 2024 - June 2028*
Bachelor of Technology in Computer Science | GPA: 8.5/10

Subhangi Devi Inter College *2024*
Senior Secondary (Intermediate) | 87%

WORK EXPERIENCE

Data Analytics Intern, IBM (in collaboration with AICTE) *August 2026 - September 2026*
- Cleaned and analyzed datasets using Python, Pandas, and NumPy to identify meaningful patterns and trends.
- Performed EDA and statistical analysis to uncover correlations, outliers, and actionable insights.
- Built informative visualizations using Matplotlib and Seaborn for effective data communication.
- Used SQL for data extraction, transformation, filtering, and aggregation.
- Prepared analytical reports and dashboards to support data-driven decision-making.

Generative AI Intern, IBM *February 2026 - March 2026*
- Completed a Virtual Internship via FSP in Generative AI (PBELGEN221IN, IBM Career Education Program), building applied skills in prompt engineering and responsible AI.
- Streamlined data collection and reporting workflows, cutting processing time by 20% and improving overall efficiency.
- Implemented process automation solutions that increased team productivity by 15%.
- Conducted in-depth market research and analysis, identifying 10+ key trends that informed project direction.

PROJECTS

Mental Health Score Predictor *July 2026 - August 2026*
- Built a machine learning model to estimate mental health scores from lifestyle and behavioral factors.
- Cleaned and preprocessed data by handling missing values and encoding categorical variables, improving data quality by 33%.
- Benchmarked multiple classification algorithms to identify the best-performing approach.

AI-Powered Waste Detector *March 2026 - April 2026*
- Developed a waste detection platform using FastAPI and the Gemini Vision API to analyze uploaded and real-time camera images.
- Applied computer vision-based image analysis to classify waste types, assess risk levels, and recommend disposal methods.

Fake News Detector *October 2025 - November 2025*
- Built a machine learning classifier to distinguish real from fake news articles using textual features.
- Performed text preprocessing - cleaning, tokenization, stop-word removal, and normalization - to prepare data for modeling.

CERTIFICATIONS

Applied Data Science with Python - IBM Skills Network / Cognitive Class *September 2026*
Learning path covering Python for Data Science, Data Visualization with Python, and Machine Learning with Python

Data Analysis with Python (DA0101EN) - IBM / Cognitive Class *September 2026*

Virtual Internship via FSP - Generative AI (PBELGEN221IN) - IBM Career Education Program *March 2026*

Data Science Job Simulation - Forage / BCGX *August 2026*
